

# ENVIRONMENTAL POLICY

---

AMES's lines of action in environmental issues are characterized by:

Strict compliance with the legal regulations of each of the places where the company carries out its activity, as well as with the agreements that it voluntarily wishes to sign.

And applying the criteria of **POLLUTION PREVENTION, SUSTAINABLE DEVELOPMENT AND CONTINUOUS IMPROVEMENT**:

- Management of energy, water and raw materials, always seeking their optimization and therefore, their saving.
- Selection of new equipment or production processes, taking into account their impact.
- Minimisation and reuse of waste and, ultimately, recycling and/or management by authorised companies.
- To train and sensitize the employees on environmental issues.
- Implement a Management System that can meet the requirements of the ISO-14001 standard.

A handwritten signature in black ink, appearing to read "C. Molins". The signature is fluid and cursive, with a long horizontal stroke extending to the left.

*César Molins*  
General Director of AMES

*This policy will be available to any interested party: Customers, Suppliers, Administration, Local Bodies and Entities, etc. through the AMES website [www.ames-sintering.com](http://www.ames-sintering.com)*
